

**We all have
great visions
to heal the world
and
to re-create
healthy environment.**

**Can you imagine
the power
that develops
when we look into the future
together and combine our
visions?**

**My vision
in this challenge is
to connect our visions,
because that is the condition for
my vision to come true.**

**I support you
to make
your vision
come true.**

**I support you
to realize
a new and resilient
business model.**

**I support you
to earn social money**

**by investing in your health
as base of realizing visions**

**and supporting people
as base of healthy company.**

**This is my way
to heal the world
and our Ecosystem.**

My promise

**If my project wins a prize in hackathon,
then the money goes into an account
that benefits you, when:**

- 1. your vision supports a healthy world**
- 2. you cannot afford the seed capital
for investing in your health**
- 3. you help me to find teammates
and support this teammates**

In this way we co-create

Study network
for integrative medicine

as health system of a new healthy world.
